ADDENDUM for

*MPMS Chapter 17.9/EI HM 49, Vessel Experience Factor (VEF), 2nd edition, May 2012*

*Page 5, Section 4.4, delete the note:*

NOTE: Removal of any significant residue/sludge buildup will directly affect the VEF

*Page 11, Section 8.3, replace the third bullet as follows:*

– Voyages prior to the vessel's last dry dock shall be omitted, if verified that any changes to measurement equipment, tables, vessel's structure, or other changes were made affecting vessel measurement.

Issued by the Energy Institute
